

## Kit EV-WK31

### EVOLUTION®

This Evolution® pop up kit is designed to fit into a 10 x 20 inline exhibit space. It features two lightweight expanding aluminum frames (one convex and one concave) with QuickSet™ (4) LED wall washer lights that come into position as the frames are expanded. The framework is backed by over 30 years of industry duty and comes with a lifetime warranty. Two SpiderMount® LCD monitor mounts allow for the mounting of two 22' monitors flush to the concave panels. Magnetically attached rollable high impact laminated graphics provide for branding on the front face and ends of the unit. The unit is designed to be set up in minutes without the use of tools. The molded wheeled shipping cases can ship UPS or FedEx and have an optional case to podium conversion (one shown).
