The Last Exhibit You'll Ever Buy

Kit MQ-WK38

MULTIQUAD®

This MultiQuad® portable modular system is designed to fill a 30 x 30 trade show space. A center 16' tower allows for elevated branding while housing up to a 42" monitor using a Media mount. An angled back wall creates a closed presentation area with MultiQuad bench seating containing storage below for attendees. The forward two L shaped kiosks offer backlit branding as well as display podiums on the inside. Additional free standing podiums provide a meet and greet area. MultiQuad® requires no tools for assembly and uses the Build By Numbers™ assembly system. Lightweight aluminum framework carries a lifetime guarantee. All visible surfaces are covered with magnetically attached Quads & rollable backlit graphics that can be easily changed out. All components are individually packaged and ship via common carrier in a traditional trade show crate.

FEATURES

Lightweight aluminum framework

Storage inside all framework

Lifetime framework warranty

Magnetic Quads are easily assembled, changed or moved

Easily reconfigures to smaller sizes or can be added to

Build By Numbers assembly

Ships in individual packaging inside a traditional trade show crate
