

MultiQuad®
The Last Exhibit You'll Ever Buy

Kit MQ-WK77

MULTIQUAD®

This lightweight MultiQuad® modular display system is designed to work in a 40 x 40 booth space. The aluminum framework with lifetime warranty assembles without the need for tools using the Build By Numbers™ assembly system. High impact graphic Quads are magnetically attached to the framework. The open framework provides storage behind every Quad. The unit has a series of overhead bridges (with downlighting) as well as two 16' high towers for branding. There are (2) private and (2) semi private conference areas as well as (6) freestanding podium areas for meet & greet or product demo. There are provisions in the center core for up to (4) 42" flush mounted monitors using MediaMounts™. Although lightweight, portable, and modular in design this unit will pack in a traditional trade show crate that will ship via common carrier.

FEATURES

Lightweight aluminum modular framework with lifetime warranty

High impact printed Quads are easily assembled or changed out

Reconfigurable for smaller sized exhibit use

Savings on shipping and drayage over traditional custom

No tools required assembly

Packaged by individual frame modules in traditional trade show crate
