Kit MQ-WK79

MULTIQUAD®

This MultiQuad® modular display system is designed to fit within a 10 x 10 inline booth space. The lightweight aluminum framework requires no tools to set up and uses the Build By Numbers™ assembly method for easy installation. The right side of the unit is set up to accept up to a 42" monitor mounted flush within the framework. On the left side of the back wall are (2) recessed showcases with LED downlighting. Across the top left and right are overhead canopy units with internal downlights. Out front is a pair of max depth podiums for meet and greet or product display. The face and sides / insets for the back wall as well as all sides of the podium are covered with high impact printed Quads that magnetically attach. Storage can be had within any frame or the podium by removing and then reinstalling the Quad. The unit ships in molded wheeled shipping cases that can transport via FedEx or UPS.

FEATURES

Lightweight aluminum framework with lifetime warranty

No tools required assembly
