

MultiQuad®
The Last Exhibit You'll Ever Buy

Kit MQ-WK81

MULTIQUAD®

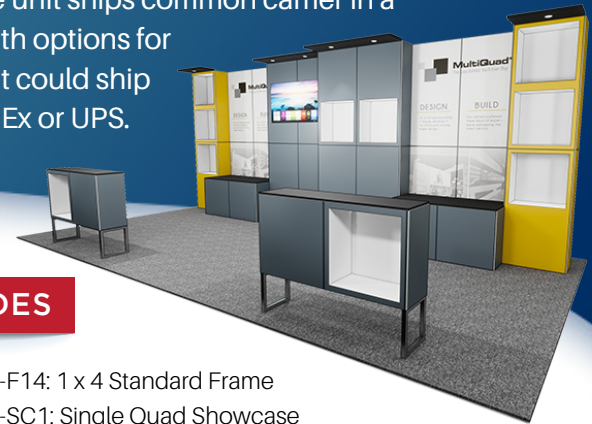

This MultiQuad® lightweight modular system is designed to fit within a 10 x 20 inline booth space. The aluminum framework requires no tools for setup and uses the Build By Numbers™ assembly system to make it easy. The back wall features (8) individual showcase units with internal downlighting, provisions for up to a 42" monitor flush mounted as well as two sets of low plinth shelving for product display. Overhead canopy units with LED downlighting help to showcase branding and graphics. The magnetically attached Quads on all visible surfaces, front and sides, are printed in high impact graphics. Out front (2) double podium units, each with its own downlights showcase, provide product display and meet & greet areas. The unit can be reconfigured or split into two smaller units if needed. The unit ships common carrier in a traditional trade show crate with options for molded wheeled cases that could ship FedEx or UPS.

FEATURES

- Lightweight aluminum framework does not require any tools
- Lifetime warranty on the framework
- Build By Numbers assembly system
- High impact printed Quads magnetically attach
- Storage anywhere along the back wall by removing a Quad
- Flush Mount monitor and downlit showcases
- Traditional crate (optional molded wheeled cases)
