

MultiQuad[®]
The Last Exhibit You'll Ever Buy

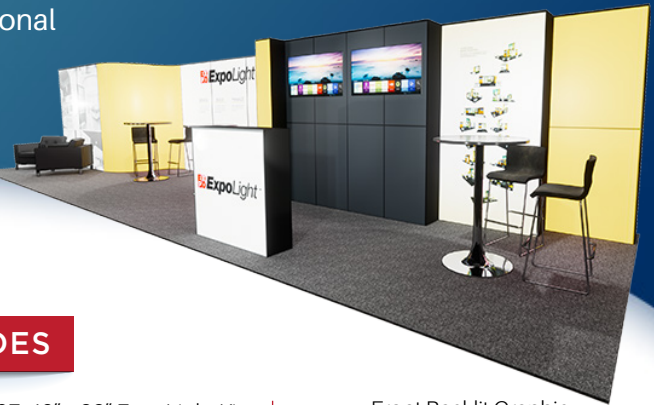

EXPO **ExpoLight**[™]

Kit MQ-WK82

MULTIQUAD[®]

This lightweight portable ExpoLight[™] backlit display with a section of MultiQuad[®] is designed to fit within a 10 x 40 inline exhibit space. The aluminum framework sets up without the need of tools and uses the Build by Numbers[™] assembly system to make it easy. The backlit modules utilize LED lighting and magnetically attached rollable high impact graphics in flat, concave, and convex formats on all visible front faces. Incorporated into the back wall at the right is a section of MultiQuad that can house up to (2) 42" monitors (not included) using MediaMount[™]. Out front there is a freestanding backlit podium kit. The design of the unit allows for several semi-private conference / meeting areas. The unit can be reconfigured into smaller sizes based on needs. This unit is designed to ship common carriers in a traditional wooden crate.

FEATURES

Lightweight aluminum framework with lifetime warranty

LED lighting in ExpoLight modules with rear deflector shields

High Impact magnetically attached printed Quads for MultiQuad section

No tools required (Build by Numbers) assembly

Backlighting creates an attention-getting exhibit

Ships via common carriers in traditional trade show crating
