

MultiQuad®
The Last Exhibit You'll Ever Buy

Kit MQ-WK83

MULTIQUAD®

This lightweight MultiQuad® modular system is designed to fit within a 10 x 10 inline exhibit space. The aluminum framework is covered by a lifetime warranty and requires no tools for setup, using the Build By Numbers™ assembly system. The stepped back wall has the ability to house up to a 42" monitor while the tiered modules create a visibly interesting display. The overhead canopy sections with LED downlighting help to spotlight branding and images. The front face, returns, and sides of the back wall are covered with high impact, printed, magnetically attached Quads that are easy to assemble or to change out. Storage can be accessed by removing then installing a quad and utilizing the void in the framework. Out front is a double width podium for meet & greet or product display, again with access to storage below. The unit ships via FedEx or UPS in molded wheeled cases.

FEATURES

Lightweight aluminum framework with lifetime warranty

No tools required assembly

Build By Numbers assembly system

High impact printed Quads magnetically attach

Easy access storage within the back wall or podium

MediaMount™ allows for a flush mounted monitor and downlit canopies
