

Kit LV-WK36

LEVEL™

This LEVEL™ kit is designed to fill a 10 x 10 inline exhibit space and features almost twenty feet of graphic area. This Lightweight modular system requires no tools for set up and uses the Build By Numbers™ assembly system. Full sized aluminum framework with six basic components and built-in plug and play LED lighting illuminates your branding. The three GraphicGlide™ interactive images create an engaging and immersive experience. Large format digital graphics are magnetically attached to the framework and easily installed or changed out. The sculpted surrounds create a visually pleasing three dimensional graphic experience. The unit ships in a purpose built slotted shipping crate where each component has its specific place.
