

MultiQuad®
The Last Exhibit You'll Ever Buy

Kit MQ-WK59

MULTIQUAD®

This MultiQuad® modular exhibit is designed to fit within a 10 x 20 booth space. The lightweight aluminum framework requires no tools for set-up and uses the Build By Numbers™ assembly method to insure ease of installation. The back wall features forward facing full height return walls, a set of counters can be used for product demo or display, and the L-shaped podium at left and podiums at right allow for meet & greet or displaying product. The back wall, forward returns, and podiums are all covered with high impact magnetically attached Quads allowing for branding on all front and sides of the exhibit, helping to expand the imaging opportunity. The unit can be reconfigured, made smaller for 10 x 10 use, or added onto. LED stem lighting provides a spotlight on branding. Storage can be had within any frame by simply removing a Quad. The unit has the ability to ship in molded wheeled shipping cases via FedEx or UPS, or can be packaged in a traditional trade show crate via common carrier.

FEATURES

- Lightweight aluminum framework with lifetime warranty
- Magnetically attached Quads can be any color, graphic, image or message
- LED stem lighting
- Easy to reconfigure, Quads can be moved or changed out as marketing messages change
- Build By Numbers assembly
- A wide range of additional accessories.
- Can ship FedEx, UPS (cases) or common carrier (crate)
