

MultiQuad®
The Last Exhibit You'll Ever Buy

Kit MQ-WK66

MULTIQUAD®

This lightweight MultiQuad® modular exhibit is designed to fit into a 10 x 20 floor space. The no tools required framework assembles easily using the Build by Numbers™ set up system. The unit features (6) recessed and down lighted showcases built into the back wall, as well as an overhead center canopy system with down lights. The entire front face, steps, and ends of the exhibit (all four sides of the podium) are covered with magnetically attached Quads that can be printed in any color, graphic, or image. These are easily installed, removed, or changed out as marketing messages evolve. Frame modules can be reconfigured, added to, or used in smaller sizes based on show needs. Out front is a freestanding double-wide podium unit. Storage is available within the podium or anywhere along the back wall by simply removing and reinstalling a Quad. The unit can ship FedEx or UPS in molded wheeled cases or in an optional traditional crate via common carrier.

FEATURES

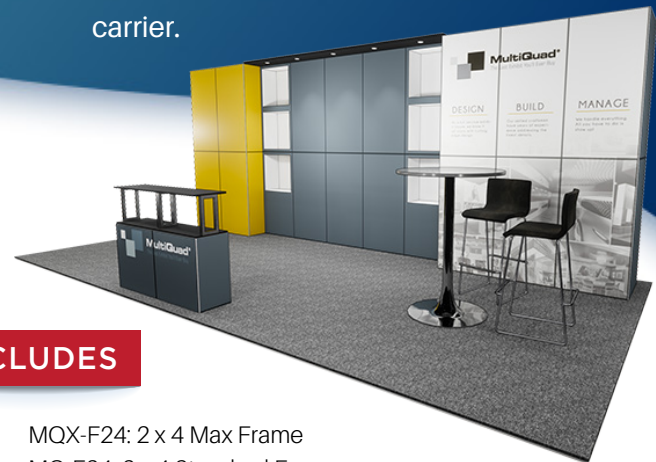

Lightweight aluminum framework with lifetime warranty

Easy to install, magnetically attached Quads can be printed with any image
