

Kit EL-WK69

EXPOLIGHT™

This ExpoLight™ portable backlit display is designed to fit within a 10 x 10 booth space. The lightweight aluminum framework sets up without tools using the Build By Numbers™ assembly system and is backed by a lifetime warranty. The back wall consists of a 46" wide flat module and (2) convex curved modules to make a half-round. The backlit rollable graphics are magnetically attached to the framework - side end caps are standard black. Plug and play LED lighting housed in the top and bottom of each module make for a bright white illumination, while back closure reflector panels keep lighting contained within the modules. Out front is a 46" high counter unit with backlit front for meet and greet. This unit is designed to pack and ship FedEx and UPS in molded wheeled cases that have internal packaging for all components.

FEATURES

Lightweight, no tools required framework with lifetime warranty

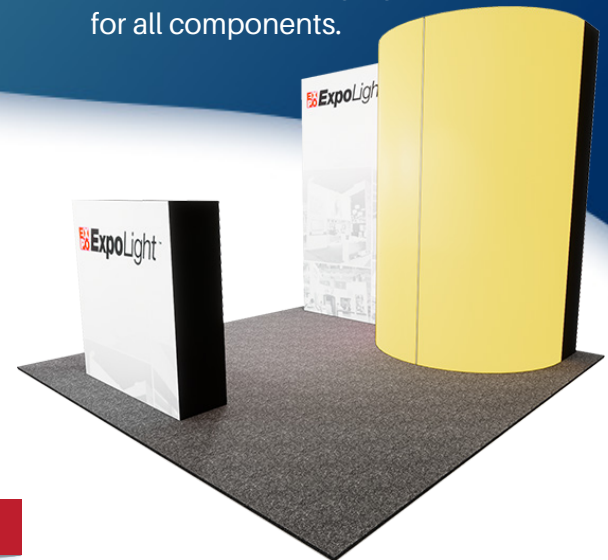

LED internal lighting to illuminate images

Magnetically attached rollable backlit front graphic panels are easy to assemble or change out

Easily added to or reconfigured

Backlit images attract added attention

Ships FedEx or UPS in molded wheeled cases
