

Kit EL-WK76

EXPOLIGHT™

This ExpoLight™ LED backlit lightweight portable display is designed to fill a 10 x 20 inline exhibit space. The (6) 34.5" wide by full height modules are tiered to create depth, dimension, and interest. Each features a backlit rollable graphic that magnetically attaches to the aluminum framework. The units require no tools for assembly and setup is guided by the Build By Numbers™ system. Each module has its own LED lightsource top and bottom, black closure end panels and a rear light deflector / closure panel. Graphics are easily applied or changed out. Units can be used individually or reconfigured into other sized exhibit spaces. Each module ships in its own molded wheeled case with internal packaging via FedEx or UPS.

FEATURES

- Lightweight aluminum framework that assembles without tools
- Lifetime warranty on framework
- Internal plug and play LED lighting sources
- Magnetically attached graphics and panels are easy to use
- Easily reconfigures (ability to be double sides as well)
