

Kit VM-WK78

VOOM™

This lightweight portable expanding frame Voom™ system is designed to fit within a 10 x 20 inline booth configuration. This unit consists of (2) 10' modules; one stepped forward to create a tiered back wall. Each module uses a hook and loop attached full sized dye-sub fabric image that wraps around the sides for complete coverage front and sides. The LED wall washer lighting on each module helps to illuminate branding and imagery. Out front a lightweight expanding frame podium with dye-sub graphic wrap creates a meet & greet or product demonstration area. Units can be used together or separately as 10 x 10 units. The unit transports via FedEx, UPS, or car in soft-sided wheeled duffel bags.
