

MultiQuad®
The Last Exhibit You'll Ever Buy

Kit MQ-WK100

MULTIQUAD®

This MultiQuad® lightweight modular display is designed to fit within a 10 x 10 inline booth space. The no tools required aluminum framework uses the Build By Numbers™ assembly system and is backed by a lifetime warranty on the frames. All visible surfaces are covered with magnetically attached Quads that are printed with high impact graphics or faux finishes. This unit has the capability to have a 42" flush mounted monitor held within the frame. The stepped design creates interest and eye appeal. The right side half return wall features a counter top surface. Storage is available anywhere along the back wall or returns by simply removing and reinstalling a Quad. The unit can ship via FedEx or UPS in molded wheeled shipping cases.
