Kit HL-WK53

H-LINE

This h-line SEG fabric graphic display is designed to fit within a 10 x 10 exhibit space. It features a lightweight aluminum framework with dye-sub SEG fabric graphics (that are easily changed out to accommodate marketing messages) and requires no tools for set up. The left side stepped panel creates a recessed alcove area that can accommodate product or marketing material storage. Lighting is provided by LED overhead stem lights. The full height modules of this unit ship in a pre-slotted traditional wooden shipping crate via common carrier.

FEATURES

- Lightweight framework with lifetime warranty
- Dye-sub high impact fabric graphics are lightweight
- Built in storage area
- LED lighting
- Can be added onto
