

MultiQuad®
The Last Exhibit You'll Ever Buy

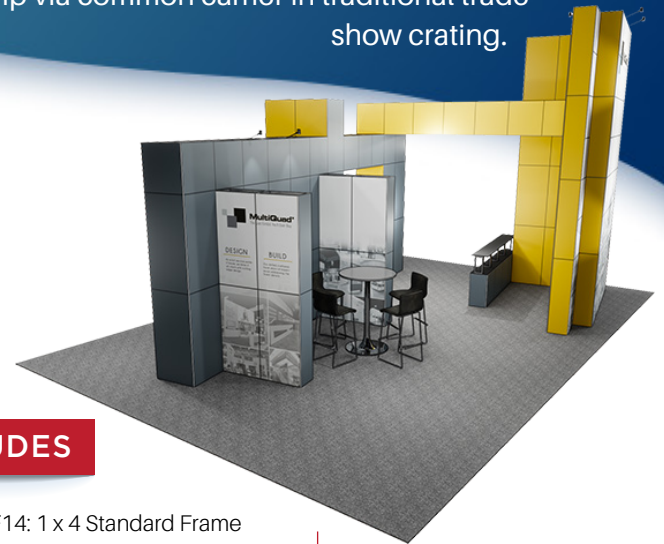

Kit MQ-WK56

MULTIQUAD®

This modular MultiQuad® system is designed to be used in a 20 x 30 exhibit space. There are no tools required to set up using the Build By Numbers™ assembly system, making it easy. The 16' corner tower allows for branding that is visible across the show floor. A bank of podiums allows for meet and greet or product display and demonstration. Provisions are made for two up to 42" monitors that are flush mounted within the system. A secondary wall provides branding as well as a semi private meeting area. Overhead bridge systems tie all components together for a cohesive look. All visible surfaces are covered with magnetically attached Quads printed with impactful graphics, messaging, or in faux finish. Components are easily reconfigured for use in different sized exhibit applications. Components are packaged by frame module and then ship via common carrier in traditional trade

show crating.

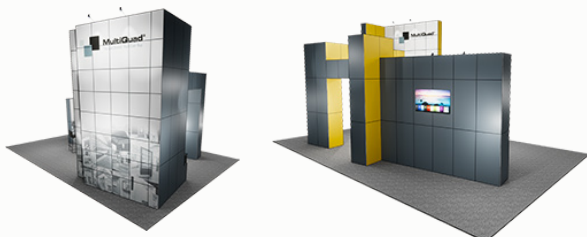

FEATURES

- No tools required Build By Numbers set up
- Lifetime warranty on framework
- Storage behind any Quad within framework
- Quads are easily attached magnetically - and can be repositioned or changed
- Monitors mount flushly within the frame
- Ships common carrier in traditional trade show crating
