The Last Exhibit You'll Ever Buy

Kit MQ-WK94

MULTIQUAD®

This MultiQuad® modular system is designed to work within a 20 x 30 island configuration (yet can be reconfigured for inline use). The center structure provides branding over the entire visible surface using high impact graphic Quads that magnetically attach to the framework. The two 12' high tower units help elevate your image for higher visibility. Overhead canopies with LED downlighting help illuminate messaging. Lightweight angled modules can be easily moved to access a central storage area. The design allows for two separate seating areas as well as an L shaped meet and greet podium both sides along with side podiums. Storage can also be had within the podiums or back wall by removing any Quad. This unit packages by module in a traditional trade show crate.

FEATURES

Lightweight aluminum framework with lifetime warranty

Sets-up easily using the Build By Numbers™ assembly system

Easily reconfigures for use in other sizes

High impact graphic Quads in any color, graphic, or faux finish

Storage within the system behind Quads

Components ship via common carrier in prepackaged containers within a traditional trade show crate
