

**MultiQuad®**  
The Last Exhibit You'll Ever Buy

## Kit MQ-WK88

MULTIQUAD®

This lightweight, portable MultiQuad® display is designed to fit within a 10 x 10 booth space. The aluminum framework sets up without tools using the Build By Numbers™ assembly system. Frame modules can be reconfigured or added to as needs grow and are backed by a lifetime warranty. The back wall uses a stepped design with three separate podium units for product display or demo. Out front, the L shaped podium and counter allow for meet and greet or product display. The right side of the unit features a canopy system with LED downlights. Frames are covered on all visible sides, ends, and front faces with easy to use magnetically attached Quads with high impact printed finish - any color, graphic, text, or faux finish. Quads are easily rearranged or changed out as branding messages or images change. The unit is designed to ship FedEx or UPS in molded wheeled cases.

### FEATURES

- Lifetime warranty on framework
- Easy to assemble without tools
- Quads easily attach or change out, available in multiple sizes
- Reconfigures and can be added to to make any sized exhibit
- Storage within any frame behind Quads
- Can incorporate flush mount monitors
