

Kit LV-WK99

LEVEL™

This 8' wide LEVEL™ lightweight modular display system is designed to fill a 10 x 10 exhibit space. The full sized aluminum framework requires no tools for assembly with only 6 major frame components. The built-in LED lighting that resides on the top frame is plug and play and casts a bright white light down into the unit. The inboard surrounds frame out a shadow box look with a stationary GraphicGlide™ with monitor and podium unit. The semi-rigid magnetically attached full size graphics inside and on the outer sides provide almost 16' of graphic area. The unit ships via common carrier in a slotted traditional lay-down crate where each component has its own place.

FEATURES

- No tools required set up using the Build By Numbers™ assembly system
- Lifetime warranty on framework
- Built in plug and play LED overhead lighting
- Full sized magnetically attached graphics are easy to install or change out
- Monitor attachment and podium within the framework
- Ships common carrier in slotted traditional trade show crate
