

This hline lightweight modular SEG fabric graphic display is designed to fit within a 10 x 20 exhibit space. The unit features a lightweight aluminum framework with no tools required assembly and lifetime frame warranty. The silicone edge fabric graphics are easily attached (most often they travel already assembled) or can be changed out as needed. The unit has a large back wall with forward returns to increase the amount of graphic area. The overhead canopy and support provide additional graphic areas while creating a small open conference or demo area. LED stem lighting helps illuminate the back wall area. Storage can be created in the right side cube by removing and reinstalling a graphic. Shelving is available on the left side along with a freestanding podium unit for meet and greet as well as storage. The unit ships common carrier in a slotted trade show crate.

### FEATURES

No tools required assembly

Lightweight aluminum framework with lifetime warranty

Vibrant dye-sub SEG graphics are easily changed out

Unit can be reconfigured or added to
